Vision

To be the world's most reliable partner in animal feed industry to satisfy the needs of our valuable customers across the world by bringing world class quality products at their doorstep.

Mission

To achieve profitable growth through Innovation, Quality, Consistency, Commitment and sustainability.

Values

• Trusteeship	• Customer Focus	• Excellence
• Respect for People	• Quality	• Innovation

ANIMAL FEED PRODUCTS

We aspire achieving long term business relationships with our clients on the base of strong corporate ethics. We are committed to maintain high quality standards for the products manufactured by our feed mill and always adhere to the committed safe & digestible feeds.

WHY CAMRON ?

We believe in Trust & transparency. We are determined to be known for our high ethical standards and commitment to transparency and openness in business.

Premium quality feed: We are known as premium quality feed manufacturer. We assure that feeds manufactured by us are superior in quality among others.

Safe & digestible feed: Healthy, productive animals mean a safe & sound feed supply and it starts from the process of selecting ingredients to final product. We assure feed safety at all levels.

Guaranteed nutrition: We believe that to manufacture balanced compound feed, minerals and admixtures are important to have proper required nutritional value in feed.

Assure animal health: Our feed is not just safe but we also make sure that feed is digestible and makes animal healthy with parallel growth of body & weight.

Best practices: We comply with Current Good Manufacturing Procedures and Sanitary Standard Operation Procedures assured standards for all feed products.

Emission free Manufacturing: We strive to produce best with zero emission & environmental impact. We implement research based methodology in product & process to produce environment friendly feed.

ANIMAL FEED

TYPE	CATEGORY	FORM
CFL-GROWTH	EQUINE	PELLETING
CFL RACING	EQUINE	PELLETING
CFL-BALANCED	EQUINE	PELLETING
MIX FEED	CATTLE	EXTRUDED
PRO-PELLETS	CATTLE	PELLETING
MAIZE GRIT	CATTLE	EXTRUDED
DAIRY SPECIAL	CATTLE	PELLETING
CHICK STARTER	BROILER	PELLETING
CFL-GROWER	BROILER	PELLETING
CFL-FINISHER	BROILER	PELLETING

Each product is manufactured from high quality fresh & clean ingredients. No any harmful chemical, color or taste added. No any animal origin ingredient is used in feed formulation.

CFL-GROWTH

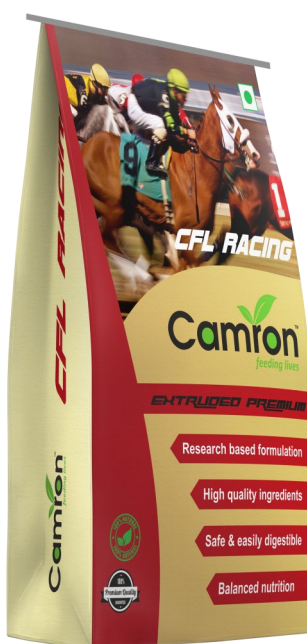

CFL Growth feed is formulated for optimum growth of foals & growing horses to provide essential amino acids, vitamins, minerals, probiotics, enzymes and proteins which are essential to equine growth. It contains 16-18% protein and a proprietary Pre-Mixture with required vitamins and minerals to balance feed ratio for equine growth. Premium quality Rice Bran to help build muscle and to increase stamina.

Packing: HDPE Bag

Net Wt: 30kgs

Ingredients: High Quality Graded & Flaked Oats, Steam Flaked Corn, Heat Stabilised Rice Bran), Rice Bran Oil, Steam Flaked Barley, Premium CFL Pellets made from Soya De-Oiled Cake, Wheat Midds, Di-calcium Phosphate, Calcium Carbonate, Molasses Arome, Salt, Lysine, Imported Vitamin and Mineral Premix, Mycotoxin Binder, Mold-Inhibitor and Probiotics

CFL-RACING (Extruded Premium)

Horses engaged in racing should be counted among those horses that really have to “perform”. From an early age, for most racing horses from the age of two, they will be trained daily for several hours, will be transported frequently (endure transport-stress) and compete on speed and on stamina. CFL Racing is specially designed feed for performance horses that provides essential energy, protein, fiber and Vitamins.

Packing: HDPE Bag

Net Wt: 30kgs

Ingredients: Premium imported Whole Oats, Flaked Corn, Beet Pulp Shreds, Rice Bran Oil, Vitamin E, Specially formulated pellets made from Soya De-Oiled Cake, Wheat Middlings, Di-calcium Phosphate, Calcium Carbonate, Cane Molasses, Salt, Lysine, Vitamin and Mineral Premix, Mycotoxin Binder, Mold-Inhibitor, Probiotics, Selenium, Amino Acid Profile and Chromium.

CFL-RACING (GOLD PELLETS)

CFL Gold Pellet Balanced feed is specifically formulated for maintenance of horses. This is a balanced feed for daily maintenance that provides essential amino acids, vitamins, minerals and proteins. It contains 20-22% protein and a proprietary Pre-Mixture with required vitamins and minerals to balance feed ratio for equine maintenance.

- Amino Acid Profile
- Balanced nutritional value for daily maintenance
- Increases digestible energy.
- Improves balanced immunity, smooth growth rates and shiny coats.
- Pellets are highly digestible.
- Increases growth of horse in any stage.

Packing: HDPE Bag

Net Wt: 30kgs

CFL-PREMIUM PELLETS

CFL-Balanced feed is formulated with premium nutrition and a research based formula that performs for horses of all ages and activity levels. It provides all the necessary nutrients to promote stamina, strength and vitality for horses that are used in average riding.

Features :

- Feed for **all** (Can be fed to all type of horses)
- Protein **rich** feed with amino acid profile
- Contains Vitamins & minerals to **support** muscle and bone strength
- Balanced **nutrition**
- Premium **quality** ingredients

Packing: HDPE Bag

Net Wt: 30kgs

DAIRY SPECIAL (SILVER PELLETS)

This is palatable and good source of nutrients for growing, adult, dry, milk producing and pregnant animals. Through regular use of compound cattle feed in prescribed quantity along with basal diet, cost of milk production from dairy animals can be optimised and net profitability can be increased.

Packing: Fresh Jute Bag

Net Wt: 70kgs

NUTRITIVE VALUE	DMB	LEVEL
CP%	19-20	Min
EE	2.5-3.0	Min
CF	12-13	Max
TDN	70-71	Min

DAIRY SPECIAL (GOLD PELLETS)

This is palatable compound feed with high source of energy & nutrients for growing, milk producing and pregnant animals. High quality tested ingredients along with premium imported minerals are added to produce the balanced feed for better result.

Packing: HDPE Bag

Net Wt: 50kgs

Ingredients: De-oiled Rice bran, Maize, Molasses, Rape seed cake, Cotton Seed DOC, Oil cake, Rice polish, Salt, Imported premium minerals & mixtures and extension.

NUTRITIVE VALUE	DMB	LEVEL
CP%	20-21	Min
EE	3-4	Min
CF	11-13	Max
TDN	65-70	Min

MIX FEED (BALANCED)

This product is mixture of premium pellets, oil cakes, maize grit and minerals. This product is protein rich with maximum Total Digestible Materials specially for milking cows & buffaloes.

Benefits:

1. Increase milk productivity if fed regularly.
2. Increase quality of milk due to its digestibility.
3. Improves animal health.

Packing: HDPE Bag

Net Wt: 50kgs

Ingredients: De-oiled Rice bran, Maize Grit, Molasses, Cotton Seeds DOC, Rape seed cake, Rice polish, Salt, Imported premium minerals & mixtures and Vitamins.

MAIZE GRIT (BALANCED)

Corn can be used in many different types of backgrounding and finishing diets, and it can serve as a supplement in forage-based diets for Milking animals. Compared with other feed grains, corn is lower in protein and slightly higher in energy. Corn contains approximately 70 percent starch on a dry-matter basis. Other important fractions in the corn kernel include protein, fiber and minerals.

Packing: HDPE Bag

Net Wt: 50kgs

Ingredients: Grinded corn, corn by products, ToxFin and premium minerals & vitamins.

COTTON CAKE MEAL

Cottonseed DOC is the by-product of oil extraction from cotton seeds. As a protein-rich feed, cottonseed meal is a common source of protein for cattle. This can be used as a partial substitute for soybean meal. **Cottonseed meal is a cost effective feed for milk producing animals if fed in required quantity. It is easily digestible and increases milk productivity.**

Packing: Jute Bag **Net Wt:** 50kgs

NUTRITIVE VALUE	DMB*	LEVEL
CP%	40-45	Min
EE	2.8-3.0	Min
CF	12-13	Max
TDN	70-75	Min

Suggested Feeding level

Cow/Buffalo	For milk production (per ltr)	For pregnancy	For maintenance
Small breed cows (300-400kg wt)	0.4 kg	2kg (last two months)	2 kg
Large breed cows (400-500kg wt)	0.4 kg	3kg (last two months)	2.5-3.0 kg
Small breed buffaloes (300-400kg wt)	0.5 kg	2kg (last two months)	2 kg
Large breed buffaloes (400-500kg wt)	0.5 kg	3kg (last two months)	2.5-3.0 kg
